Gymnasium Alfred-Delp-Schule   until 2019
Graduated with Abitur (equivalent to A-Levels)
1.8

Johannes Gutenberg University in Mainz   since 2019
Currently enrolled in the Bachelor of Science / Computer Science Degree
1.9 (Current grade)

Experience

Medialine Group   since 2019
Working Student
- Lead customer projects by installing and configuration our software to their determined needs. Record suggestions and adjustments, translate them into a set of specifications
- Train our customers on the corresponding software
- Help enhance our software by testing
- Design SQL tables and write corresponding queries

Medialine enterprise IT GmbH   2022
Developer / 3-month internship
- Developed a Django webapp, in which our software customers can search through manuals and use-cases to provide usage guides and tips. Extended this webapp into a forum, in which customers can log in to ask questions and respond to existing comments by other users.
- Helped develop an additional "Wine book" module for our existing ERP software by aggregating requirements from customers, translating them into a set of specifications and accompanying the development process.
